SUMMARY

Passionate Flutter developer with strong foundational knowledge in Dart, Firebase, SQLite, and REST API integration. Experienced in building scalable and responsive cross-platform mobile applications using clean architecture and state management solutions like Provider, Cubit, and Bloc.

SKILLS

Flutter, Dart, Firebase, REST API Integration, SQLite, Git, State Management (Provider, Cubit, Bloc)

ACADEMIC PROJECTS

- **ApnaMall Ecommerce App (Flutter, REST API, Bloc)**

GitHub: https://github.com/shivam6797/ApnaMall_App

Built a complete e-commerce mobile app allowing users to browse products by category, search, manage wishlist, add to cart, checkout, and track orders. Integrated secure login/signup, user feedback system, and push notifications. Applied Bloc for efficient state management and used image caching for performance optimization.

- **GemniChat App (Flutter · Firebase · Gemini API · BloC)**

GitHub: https://github.com/shivam6797/gemnichat_app

A smart chatbot app built with Flutter using Google's Gemini 1.5 Flash model for dynamic text & image-based interactions. Features include Google Sign-In authentication, real-time chat syncing with Firebase Firestore, and chat management (rename/delete). Supports light/dark themes, typing indicator animation, and persistent chat history.
